

LEADERSHIP APPLICATION INFORMATION

Thank you for showing an interest in being a part of the 2019 North Paulding High School Wolfpack Pride Leadership Team. We hope you will find the application process to be interesting and enriching regardless of the outcome. This application represents a significant departure from the standard way of selecting student leaders. If you have any questions about the application process, please do not hesitate to contact one of the band directors at any time. Good luck and work hard to best represent yourself through the process and to grow as a young adult.

Your candidacy will be assessed on the following criteria:

1. Past/current performance, past/current behavior, and dedication to the North Band
2. Quality of your application and how well you handle the pressure of the process
3. Future leadership potential
4. Best fit for the organization
5. Musical ability demonstrated on the 2019 Placement Audition

When completing the application, be thorough, complete, creative, and honest. Don't say what you think the directors may want to hear. Say what you think as an individual. Leaders are people who can offer something new and different to the organization. The application process is structured so that we will gain insights into you as a person, so please be honest and thorough. You need to open up and show the person who you truly are, or what you aspire to be. Whether you are chosen to be in the position you are applying for is not the ultimate goal; that goal is to grow as a young adult. Please make sure that you complete the application, questions, and service project with the goal of "learning something" in mind.

When submitting your items, please be reminded that ALL ITEMS should be submitted in one package and clearly labeled with your name. All question responses are to be typed. All aspects of the process will be a part of the application rubric.

If selected for the position, you will adhere to the duties and responsibilities of the position. Those duties and responsibilities are included in the packet.
